wintertaling	common teal	<i>Anas crecca</i>
zanglijster	song trush	<i>Turdus philomelos</i>
zilvermeeuw	herring gull	<i>Larus argentatus</i>
zwarte kraai	carrion crow	<i>Corvus corone</i>
zwartkop	blackcap	<i>Sylvia atricapilla</i>
		<i>number of species</i>

total number of species

50

Highlight of the day:

My guest today is a happy birder because he was able to photograph the great crested grebe, smew, merganser, Black-headed Gull and the mew gull (new species for him).

Finding traces of the beaver on the path to the Lepelaarsplassen is an experience in itself

The weather was dry and occasionally a blue sky with sun which is beneficial to the pictures.
