I met Becky and Adam at the Trainstation for an afternoon birding tour. Our first stop was the Jan van de Boschpad. Our first birds where 2 Hawfinches flying over. Just before we arrived at the look-out we had a fly-by of a highly wanted species, a Eurasian cuckoo.

Because of the hard wind we did not managed to get good views of warblers. However we found Avocet, Black-tailed godwits and close to car a Marsh warbler was finally showing itself to us.

The second stop at the 'Oostvaarders' gave us good views of Common whitethroat and a excellent close view of a Goldfinch. All three swallow species were present.

At the 'grote praambult' we could tick a far away White-tailed eagle.

After that we tried our luck at some birdshelters to avoid the wind that was helping us. A Red fox was helping us and scared some Stonechats so we could see them.

The highlight of the tour was at the end with excellent views of a Spotted flycatcher, Bluethroat and a Common redstart.
